New Jewel Gang

This Peerless Footlift Gang is without equal in its class. It is built entirely of steel and malleable iron, and, therefore, has great strength and lasting qualities. The frame, beams, bails, axles and braces are made of high carbon steel, the result of which is a frame very strong, and one not easily put out of shape or aligment. The steel wheels have long removable dust-proof bearings with large wearing surfaces, insuring long life and small cost for repairs. With the use of hard oil, these bearings require very little attention. The land wheel is large and is fitted with a cushion spring which absorbs all shock—a fact much appreciated in rough land. The rolling colter beam clamps are the simplest and most effective in use. Jewel Gangs are always shipped with rolling colters and four-horse eveners, abreast, unless otherwise ordered. Combination eveners can be supplied for six horses if required. Fourteen-inch plows for stubble work can be supplied with long or short board bottoms as desired, and for breaker work we build rod breaker bottoms, in both sizes.

Cockshutt Seeding Machines

Why You Should Buy a Cockshutt Drill

First, because it is the only perfect seeder on the market—and the strongest. And when we say it is absolutely the lightest draft machine of its kind we believe we have thoroughly proved our claims for these reasons. 1—Short axles do not bite. 2—We have given pitch and gather to the wheels. 3—Self-oiling and dust proof bearings. 4—Chain drive—not a gear drive like most drills. 5—Receding box ends give ample space between wheel and box ends, preventing mud clogging. 6—Wheels are fitted with mud scrapers. The Cockshutt Drill will stand the roughest wear and tear of Western Canadian soil because of its sturdy frame construction and the fact that all parts are rivetted together, not bolted. You should have a Cockshutt Drill because the materials are the best obtainable and the workmanship practical and thorough. Yes, Sir, there are a hundred and one good reasons why you should buy a Cockshutt Disc Drill. There is a Cockshutt dealer in your neighborhood who will gladly show you one of these machines. He can probably put you next to some nearby farmer who has bought one. Have a chat with him. We invite your most critical investigation because we know we have a seeder which has no equal on this continent. Make up your mind to buy one this season.

A WESTERN CATTLEMAN

According to Norman Rankin, whose sketch of George Lane, in March Canadian Monthly (formerly Canada West) occupies the first page of the magazine, Lane's history has been the history of the West.

Lane was born in I-o-way and when but a stripling moved to Kansas with his parents. When he grew to be sixteen years old, could lick every kid of his age in the district, de-tested "gurrls" and smoked cigarettes, he took the long trail across Nebraskey and Wyoming into Montaner. His father had "blazed the way" thre some years before, and the kid "run his down" in "Virginey City." He got wor: on a big ranch nearby.

It was a common practice in those days to drive beef 700 miles to market, shipping at Grange via the Union Pacific to Chicago. Big herds would start in April for October shipment. In '83 he made a trip as far north as Fort Kipp in Alberta, and when he returned in the spring, he announced his intention of making Alberta his headquarters.

It is said of George Lane, that he has a great respect for the maple tree, for it was the source of his first earnings. When he was a small kid back home, he picked two sacks of maple seeds, which he sold for ten dollars, real money; this money he converted into two calves, the foundation of his present enormous cattle business. Today his cattle are numbered by the thousand, and in addition to his half interest in the Bar U he owns a small ranch of 10,000 acres south of Bassano, the "Flying E" Ranch at Willow Creek, and other trifling properties. At the "Flying E" he has a summer home, and generally spends part of the year there with the family.

Mr. Lane doesn't always crease his trousers, and his hat is the same old Stetson that he has worn since "way back"—I don't dare say how long. Perhaps he doesn't know himself. His pepper-and-salt, long-tailed cut-away is known from the Coast to the 'Peg. His is a picturesque figure; an attractive personality; a double barrelled, back action, high pressure, electrical dynamo at full speed; a living example of perpetual motion, mental, physical and corporal; a six-foot giant with tow-colored hair and the smile of a sister of charity. His skin is tanned the color of a saddle, or a sorrel horse, and his voice rumbles like a big bass drum.

TEMPERANCE COLUMN
Edited by
The W. C. T. U.

A CRYING NEED

Under the heading "Our Childless Unions," the Canadian White Ribbon Tidings argues forcibly for the extension of temperance work among young people. The Loyal Temperance Legion is the form of juvenile society which the W.C.T.U. promotes. Tidings states that of the two hundred local unions in Ontario only sixty two maintain L. T. Ls. It says "Two thirds of our unions are childless."

Think of the wonderful Band of Hope work that is being done in the Old Country where temperance sentiment is not supposed to be as strong as in Canada. The United Kingdom Band of Hope Union has federated with it juvenile temperance societies having an aggregate membership of about 3,500,000. A similar proportion would give us about half a million girls and boys pledged to total abstinence in Canada. While it is true that we will fully measure up to this standard in the number of our young people who do not indulge in strong drink at all, yet there remains the regrettable fact that there is no organization, no systematic, effective training in temperance principles of this great army that will soon be potential in the management of our public affairs.

The Band of Hope is of value, not only because it helps its members in the effective grip of an obligation, the observance of which is a great restraining influence, but because it is the training school in information, in moral purpose, and in mental attitude that will often decide the part which those trained will take in a great cause of moral reform in years to come.

For this work the W.C.T.U. seems to be specially qualified. If this work were wisely promoted and superintended be the W.C.T.U. that organization would have a hold upon public respect and would command a support such as it does not enjoy to-day. Here is the field of waiting work, full of promise and usefulness and yet is a field that is steadily neglected.

Therefore, we cordially endorse the appeal of the White Ribbon Tidings. Other social reform workers ought to heed the call. The number of villages and towns in which the W. C. T. U. constitutes a working influence is comparatively small. If every union mothered a Band of Hope, we believe that unions would spring up and flourish in many other places and the example of the unions would stimulate churches, Sunday Schools, and other agencies to give special attention to temperance work and to develop special organization on temperance lines.

The cry of the children whose lives the liquor traffic burdens ought to be loud in the ears of our Christian workers to-day. The cry of the children who are ready and waiting to be trained as soldiers of the great twentieth century crusade is also loud and ought to be heard. Whether it be called Loyal Legion, or Band of Hope, or any other name, the organized, enrolled, instructed juvenile department of the temperance party ought to speedily be made ten times as strong as it is to-day.

OIL FIND IN NORTH

Edmonton, Alta., March 1.—H. L. Williams and Edward Conant, an engineer and surveyor and a party of 40 prospectors arrived in Edmonton today from a point 40 miles north of Athabasca Landing, where they surveyed 40 claims for oil. Conant left Saturday afternoon for Vancouver. The party is getting machinery together to develop the "Find". They are reticent about the quantity of oil found, but report heavy oil in the surface indications which will make good fuel when mixed with finer stuff recently located at Morinville, it is reported that the American-Canadian Oil Co., capitalized at $2,000,000 is behind the venture.

Winnipeg, March 6.—Before 9 o'clock tomorrow morning between 1000 and 1200 new settlers will have passed through Winnipeg on the way to the West. This enormous rush has been brought about by the arrival of the "Empress of Ireland," on which the number of passengers was so heavy that it required four passenger trains to get them through the West.

CENTRAL ALBERTA MOVE IS POPULAR

The Central Albertan movement set on foot by F. T. Fisher, of the Edmonton Board of Trade, and tentatively organized a few days ago at a meeting of board of trade secretaries from district towns, is being taken up enthusiastically by all the towns who have up-to-date sent in applications for membership in the league.

It is probable that before this week is out, all the towns in the district from Red Deer on the south, Vermilion on the east and Edson on the west will have sent in applications for membership. The efforts of the league are to be bent towards raising the sum of $16,600 for publicity purposes.

It is expected that the organization will be completed in a few weeks.—Capital.

GEESE ARE COMING IN FROM SOUTH NOW

Geese are now travelling north into Alberta in large flocks, according to Benjamin Lawton, provincial guardian. Mr. Lawton stated that he had received a report from Medicine Hat within the past few days, stating that a large flock had passed over that city travelling north, on February 24th, in the midst of a snow storm.

Mr. Lawton has received similar reports, just about this time of the year, from Medicine Hat, for the past three or four years. "This is not an unusual time of the year for the geese to travel north," he said, "it is generally about February 24th that I get reports from the south telling me of the geese coming north."—Capital.

OLD TOWNS FOR NEW

A sharp contrast is drawn between the old English town from which so many of Canada's new citizens are drawn, and the new western towns to which so many of them go, in an article by Augustus Bridle, in the March number of MacLean's Magazine. The old cathedral town, dominated by the church in everything, stepping peacefully through its existence just as it has slept for hundreds of years, is the environment in which the hero of the sketch, Reginald Snippett, is raised. But he goes to Alberta and helps in the making of the new town of Wabena. Wabena is just like any one of the hundreds of cheerful, hopeful little towns in the Canadian West only more so. Mr. Briddle's descriptions are based on actual experience in the wheat lands and the development of the "hero" from a timid Englishman into a stroah, self-reliant Canadian, full of wit and resourcefulness, is admirably told.

Howard Douglas, dominion parks superintendent, says the remainder of Pablo's buffalo herd will be brought to Canada in April.

The farmers and business men of Edberg have organized a milling company to be known as "The Farmers Milling Company of Edberg, Limited." J. Sherman Fox and J. B. Scott, of Heather Brae, are among the directors chosen, and the former gentleman is president. The company is to be capitalized at $15,000, and $5,000 is to be expended at once in erecting and equipping a building with necessary machinery.

A minister in the south of England had newly settled over a congregation. At the house of a Mrs. Snow, the ladies' sewing meeting was held one evening. Said a member: "Someone asked me what we were working for. I replied, "To give our pastor a "bath" (a new bathroom for the manse)" A hearty ripple of amusement passed over the happy feminine party at the tea table. Judge their hilarity at the incredible coincidence, when the innocent pastor on the next following Sunday morning announced as his text, "Wash me and I shall be whiter than snow."

PRESBYTERIAN NOTES

The Young Men's Society spent a pleasant evening on Tuesday last. The subject discussed was the "History of Music." Two excellent papers were contributed, one "History of Music" by Miss Knight, and the other on the "Evolution of Musical Instruments" by Miss Crocker. Miss Carlson, of the Baptist church, rendered a solo, Roses of June, in a very pleasing manner. A pleasant feature of the evenings entertainment was the singing of a chorus of 12 little girls. The pieces chosen were lullabies, illustrative of the early national music of various nations.

Mrs. A. Murray, Beatrice St, entertained the "Willing Workers" and friends at Mrs. Dodson, to afternoon tea, on Thursday of last week. About thirty ladies took advantage of the opportunity to say good-bye to Mrs. Dodson, who leaves for Montana this week. A very pleasant time was had, and Mrs. Dodson carries with her the very best wishes of a host of friends to her new home.

The pastor will preach at both services next Sunday, the subjects being Morning, "As a Tale that is Told," and evening, "The Judges, Othniel, Ehud and Shagmar."

FOR CONVENIENCE OF EDITORS

The Canadian Magazine for March contains an article on "The Surrender of Poundmaker," by Major C. F. Winter, of the Canadian Militia, an eye witness of that interesting event. He gives an observant account of the whole negotiations. The article is well illustrated. "Teaching the Farmer How to Farm," is the somewhat pretentious title of an article by Donald G. French which proves to be a comprehensive account of what the Ontario Department of Agriculture is doing towards helping the farmers of the Province to farm scientifically. Other articles of more than passing interest are "What is the Empire?" by Hon. William Renwick Riddell, "Canadian Collectors and Modern Dutch Art," by E. F. B. Johnston, K. C. The Magadalen Islands" (second article), by W. Lacy Alley." "The Soul of the Canadian City," by stories by Isabel Ecclestone Mackay and L. M. Montgomery.

METHODIST CHURCH

Next Sunday will be a day of special service, Rev. J. E. Hughson, B. A., of McDougall Church, Edmonton, will preach both morning and evening He will deal with the general work of the church in Canada, more particularly with education. An effort is being made to meet all financial claims for these purposes. Special singing under the leadership of Mr. Rook will be rendered.

The meeting of the Official Board was held last Thursday evening. A fairly satisfactory condition of affairs was reported.

City Council

The regular meeting of the city council was held Tuesday evening with all present. Mayor Fowler in the chair.

Minutes of regular and special meetings read and adopted.

Dr. Stevenson, medical health officer presented his report for February, which was adopted and ordered fyled.

Building Inspector Crane reported re M. McNichol's application. Chandler—Ellis—That the report be fyled and Mr. McNichol notified that the council cannot comply with his request.—Carried.

The Salvation Army, Toronto, asked for a grant towards their prison gate fund. Letter fyled.

A catalogue from The Clover Bar Nursery Co. was referred to the Parks Committee.

The Briard Hotel Co. presented an account for $25 expenses incurred owing to defective lighting system and non supply of water. The account was fyled.

J. E. Henderson asked for increase of $10 per month. Chandler—Wagner—That the letter be referred to the electric light committee to bring in a recommendation. Carried.

E. Roberts, secretary-treasurer, reported that the 1910 taxes outstanding amounted to $43,907.50. The report was fyled on motion of Chandler—Ellis.

MacEachern—Chandler—That the Mayor appoint a committee of two to go into the arrears of taxes with the city clerk and to bring in a report to the council showing amounts in arrears for two or more years. His Worship appointed Ald. Chandler and MacEachern.

Chief McMurdo addressed the council with reference to misunderstanding as to payment of brigade and other matters. The fire, water and sewers committee submitted a report re the same matter, recommending that money overpaid be allowed the brigade, but that in future, payments be made to those who are in attendance, and no others. Angus—Ellis—That the report be adopted and that amount overpaid be allowed the brigade, and that in future the brigade be paid only for those in attendance at meetings and practices. Carried.

Ald. Chandler suggested that the brigade meet the committee and draft a set of by-laws, governing their actions and submit same to the council for approval.

Assist. Chief Kelley spoke with reference to the motion just passed and stated that in his opinion some allowance should be made the brigade over and above actual payments to members, otherwise it could not exist. Matters were referred to the committee.

The finance committee reported in favor of allowing the application for refund of Dreamland Theatre. Ellis—Chandler—That the amount be written off. Carried.

The health and relief committee reported in favor of a grant of $100 to Mrs. Alvadahl, to be expended in taking herself and children to Chicago. MacEachern—Angus—That report be adopted. Carried.

The fire, water and sewers committee reported re rail fire chief as follows. Re engagement of Mr. Harry Whitehead as fire chief and assistant to the police department, we your committee beg to report that we find the fire hall in absolute need of a permanent man in the hall at all times, both from fire as well as a police standpoint, there are a great many duties which such a man could perform in connection with both the police and fire department, which would prove beneficial to the city. While the present brigade has done excellent work in the past, we believe the time has now arrived, when they should have a practical fire fighter to lead and train them in the latest methods of fighting fires and with the pick of six or eight men from the present brigade, well drilled, should bring our brigade up to a standard of efficiency and second to none in the volunteer line. The police committee have signified their willingness to stand one-half of the fire chief's salary for his assistance to the department. This would figure out something after the following:

Present cost of brigade based on month of January pay sheet	$1212.00
Mr. Whitehead's salary per annum at $90 per month	$1080.00
Less $45 per month chargeable to police department	540.00
	$ 540.00
8 volunteer men average $5.50 per month as per January pay sheet	528.00
Credit to fire department	$ 144.00
	$1212.00

We therefore recommend that Mr. Whitehead be engaged as fire chief and assistant to the police, duties to commence as soon as he can be released from present position. Signed R. M., Angus, Frank Wagner. Moved by Angus—Chandler—That the report be adopted.

Ellis—Chandler—That the offer of Burgess & Co., Toronto of $4683.83 for the concrete and plank debentures for the year 1910. Carried.

Ellis—MacEachern—That the clerk be instructed to notify all in arrears for January light that they must pay at once, or have their lights cut off, and that in future when any subscriber is one month in arrears he is to be notified that light will be discontinued unless account to paid promptly. Carried.

Chandler—Ellis—That city clerk collect a deposit of $40.00 before the Dreamland Theatre is connected. Carried.

W. L. Crane brought up the matter of testing present gas well for coal. Matter was discussed at length but no action was taken.

Angus—Chandler—That the city clerk be authorized to write Mr. Grant re the necessity of putting on a night shift at gas well. Carried.

G. R. Taylor addressed the council with reference to the report asked for, explaining cause of poor light. MacEachern—Chandler—That the council meet on Wednesday, 15th inst., as a committee of the whole to hear and discuss Mr. Taylor's report. Carried.

Chandler — Angus — That low places in streets be filled with cinders from power house, under the direction of W. L. Crane.

Ellis — MacEachern — That city clerk be instructed to call for tenders for coal required by city for all purposes, advertisements to be placed in both Wetaskiwin papers and the Edmonton Journal. Carried.

The following accounts were passed for payment: Waterworks $240.29; electric light $224.62; general $675.92.

A by-law was passed providing that the regular meeting be held every two weeks. The next meeting will therefore be held on March 21st.

Was So Bad With Heart and Nerves Could Not Sleep At Night.

Many men and women toss night after night upon a sleepless bed. Some constitutional disturbance, worry or disease has so debilitated and irritated the heart and nervous system that they cannot enjoy the refreshing sleep which comes to those whose heart and nerves are right.

Mrs. John Gray, Lime Lake, Ont., writes:—"Last summer I was so bad with my heart and nerves that I couldn't sleep at night. There was such a pain and heavy feeling in my chest that I could not stoop, and at times I would become dizzy and have to grasp something to keep from falling. I tried different things but never got anything to do me any good until I tried Milburn's Heart and Nerve Pills and I can now recommend them to all troubled as I was."

Milburn's Heart & Nerve Pills are 50 cents per box, or three boxes for $1.25, at all dealers, or mailed direct by The T. Milburn Co., Limited, Toronto, Ont.

BUILD RAILWAYS IN THE FAR NORTH AND BEAT CHICAGO.

A party of surveyors, representing Seattle speculators, returned to the city yesterday from an extended trip up north, where they made an exhaustive analysis of the country, going as far as a point 2,600 miles from here. They have been on the tramp since October 8, 1908.

One of the surveyors named Smart who gave an interview to a Journal reported stated that all along the Athabasca, McKenzie and Macleod rivers there was all sorts of evidence of oil. He said:

"There is good fuel burning peat from Fort McMurray to Fort Smith and there is oil bearing land all the way from Pelican Portage to Smith Portage, 1,000 miles north of here. The whole country on each side of the river is capable of agricultural development of the highest kind and equal to the very choicest land around Edmonton and the Clover Bar district.

"Around Fort McMurray are veins of coal and anthracite which are capable of producing good fuel for this country for a 100 years to come.

"Also there is sufficient power in the Grand Rapids of Athabasca river to produce power to light and heat the city of Edmonton for ever at only a small cost of establishing a dam there.

"We travelled through country from Fort McMurray to Clearwater river where it was up to your head in pea vine. There are also large deposits of antimony and aluminum. I confirm everything that Jim Cornwall has said about the country. I have travelled through Central Africa and Russia and in parts of Australia, and I want to say that the country north of here is the richest in the world. If railroads are put through this country it will make Edmonton a metropolis equal to Chicago. I have been surveying for 20 years and I know what I am talking about."

None of the party would say what the ultimate outcome of their trip north would be. Parties of surveyors are being sent out of here nearly every week for some point north to stake out claims on lands where the choicest minerals abound.—Journal.

THE PREMIER SCORED THE REAL ESTATE MEN

Medicine Hat, March 2.— Premier Sifton, responding to the toast "Our Province," at the successful Board of Trade banquet, at Medicine Hat, Tuesday night mercilessly scored the real estate fraternity. He feared that real estate values in Alberta were being inflated by real estate dealers to the detriment of the province. The Alberta values needed no inflating. They were there and would prove themselves with time. Substantial progress was being made all the time.

The Premier was applauded in his remarks by about 100 guests, the largest number that has ever sat down at a Medicine Hat Board of Trade banquet. It showed wonderful progress over last year, when there were only about a dozen members. Incidentally, the banquet marked the re-opening of the Alberta Hotel, remodeled at a cost of $150,000.

Dr. Leitch, president of the Taber board of trade, made the valuable suggestion that the boards of trade of the southern Alberta cities should combine for the purpose of getting together on important matters such as the conserving of natural resources, irrigation and questions to be brought to the attention of the government.

Sir Wilfrid Laurier's smile, his sauvity, his personality is known all over Canada—there are few who would not recognize his picture on sight. But Lady Laurier is quite another matter. Simple, tender-hearted, quiet in her tastes, self-effacing always, she is perhaps less widely known than any other "first lady" of a country as large as Canada. In Canada Monthly (formerly Canada West) for March, Madge Macbeth tells of a visit to her home, describing the beautiful house, the many pets and the gracious, dignified personality of the Premier's wife. Norman Rankin gives a history of "Cattle-Land" through the personality of George Lane, the big cattle and horse man of Alberta; Will D. Eaton continues the Old Circus Man stories under the title of "The Peterdactyl"; Horatio King discusses the servant question across the line; Arthur Stringer concludes his Terrorist play, "The Firebrand," and Phillip Keller, in "The Furrows of His Fathers," brings out some data on steam plowing in Western Canada. "Kit" continues her woman's department, and the editor takes up the question of Winnipeg's condition on the social evil question. The illustrations are by Perry Edward Anderson, Milo Winter, Ellsworth Young, Frederic M. Grant and others. The cover design is a portrait study by Hugh Stuart Campbell.

Washington, March 6.—Breaking all records by some thousands, the total number of public and private bills introduced in the House during the three sessions of the Congress just closed was 33,015 besides 1,700 resolutions of the usual kind.

It Is Miserable To Be Dyspeptic.

Dyspepsia is one of the most prevalent troubles of civilized life, and thousands suffer untold agony after every meal.

Nearly everything that enters a weak dyspeptic stomach, acts as an irritant; hence the great difficulty of effecting a cure.

The long train of distressing symptoms, which render life a burden to the victim of dyspepsia, may be promptly relieved by the use of Burdock Blood Bitters.

Mrs. John Sherrett, Portier, Man., writes:—"I was troubled with dyspepsia for years. A friend of mine told me about Burdock Blood Bitters, so I got a bottle to try, and before I was half finished I could eat anything without suffering, and when I had used two bottles I was sound and well. Now I feel just fine; indeed I can't say too much in favor of your medicine."

Burdock Blood Bitters is manufactured only by The T. Milburn Co., Limited, Toronto, Ont.

A BAD COLD

Developed Into BRONCHITIS.

Neglected Bronchitis is very often the direct cause of Consumption, and on the first symptom appearing Dr. Wood's Norway Pine Syrup should be used and the Bronchitis cured.

The symptoms are, tightness across the chest, sharp pains and a difficulty in breathing, a secretion of thick phlegm, at first white, and later of a greenish or yellowish color, coming from the bronchial tubes when coughing, especially the first thing in the morning.

Mrs. Dan. J. McCormack, Cleveland, O.S., writes: "My little boy two years old caught a bad cold which developed into Bronchitis. He was so choked up he could hardly breathe. Reading about your wonderful medicine, Dr. Wood's Norway Pine Syrup, I decided to try a bottle and with such good result I got another which completely cured him, without having a doctor. I cannot say too much in its praise; I would not be without it in the house as I consider it a sure cure for Colds and Bronchitis."

The price of "Dr. Wood's" Norway Pine Syrup is 25c. It is put up in a yellow wrapper. Three pine trees is the trade mark. Be sure and accept no substitute for Dr. Wood's.

Manufactured only by The T. Milburn Co. Limited, Toronto, Ont.
